Thomas Alder, a resident of Anacostia attempted, it is said, to commit suicide Monday night by jumping from the Benning bridge into the Eastern branch of the Potomac. After striking the water, Alder changed his mind, and called loudly for help, which, fortunately for him, was near at hand. It is said that a quarrel at his home was the cause of Alder's rash act. The evening services at Emmanuel Pro-

testant Episcopal Church have been discontinued, in view of the intended early departure for Scotland of the rector, Rev. departure for Scotland of the rector, Rev. W. G. Davenport, to see if he can identify the remains of the young man killed near Edinburgh as those of his son Dana. Mrs. Davenport will accompany her husband. Mr. Horace Crosier of Suttiand, Md., was seriously hurt by his team running away a day or two ago. He was driving leisurely along the road not far from his home, when a man who was in the wagon with him raised an umbrella he had in his hand in such a way as to throw the lines from Mr. Crosier's hand, and causing them to fall upon the horses. This frightened the animals, and they dashed off at a furious rate of speed. Mr. Crosier was thrown out of the wagon and badly bruised about the body and limbs. The man who was the innocent cause of the whole affair was not injured.

masses as a necessity of life.

It was a success, a success because it rested upon common sense. This universal fashion is the fulllength overgarment. The Summer Girl travels im-maculate from soot and dust beneath its dainty linen covering; the Mountain Maid, under its cloth draperies, shrugs her pretty shoulders at the au-tumn blizzards; when lined with warm fur it pro-tects the Sleigh Belle against the winter's cold if made of checked waterproofing, it attractively shelters the Easter Lily from April showers.

At all seasons it is becoming and adds to the attractive outwardness of feminine humanity. It is,

however, not only in attractive outwardness that Here is a case in point:

Some years ago the head of the most successful health institute in America, the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., set out to make a much needed discovery which should be founded on common sense and appeal to the com-mon sense of common humanity. This man, R. V. Pierce, M. D., author of The People's Common Sense Medical Adviser, of which more copies have been sold than of any other book published in this country, had from his long experience as a scientific investigator, physician and student of human nature become convinced that the American people lacked nervous stamina. The very energy which

Santa Cara Co., Cal., writes: "I suffered for four-teen years with female weakness, nervousness and general debility, trying everything to help me I could find—all to no avail.
"I then heard of Dr. Pierce's medicines, and although I was thoroughly discouraged and disgusted with taking medicine, I though I would try once more to find relief. I took the "Golden Medical Discovery' and Favorite Prescription" and too great praise cannot be given for the rapid relief they gave me. I am now free from the former troubles, and may God bless Dr. Pierce in all his undertakings to cure suffering humanity."

gave me. I am now free from the former troubles, and may God bless Dr. Pierce in all his undertakings to cure suffering humanity."

A WONDERFUL EXPERIENCE.

Mrs. James Gatfield of No. 77 Mary street, Hamfilton, Ont., Canada, writes: "Last winter I had a very severe attack of grip. I got better, but did not get well. In the fall I lost my health entirely. I had cold chills, fever, night-sweats and a violent cough; when I was lying down I was nearly smothered; as I did not get much rest night or day, I falled rapidly. I sent for our family physician; he told me my left lung was in a terrible condition and gave me to understand I had consumption, and I knew by the way he acted he did not think I would last long. He wanted me to try cod liver oil. I told him my two sisters had doctored that way and only lived about a year and a half after they got the disease, so I declined to take it. I sent for a bottle of 'Golden Medleal Discovery,' taking it every two hours according to directions, and before I had finished the medicine I was able to walk out. I went to another doctor who is considered an expert on lung troubles. He told me plainly I had consumption and had had it for some time. He said both my lungs were diseased and I could not live long. I just went to him to get his opinion. I am glad I did, for now I know by experience what your medicine will do. When I started on the second bottle I was much better in every way and was able to take a walk every fine day. I enjoyed my sleep, my appetite was good, and by the time I had finished the second bottle I began to feel like a new woman. I still had a cough, so I got a third bottle, and by the time I was half gone I was completely cured."

Mr. Geo. W. Hulsizer, a well-known raliroad conductor of Milton, Northumberland Co., writes: "I had my third doctor, and he doctored me for some time, and finally said, "There is no use running up a bill.' I asked him what ailed me. He said, 'Why, it is consumption.' This gave me great alarm, and I was about to give up in great de

nature become convinced that the American people lacked nervous stamina. The very energy which enabled them to conquer a new land and develop it to the foremost rank among the powers of the world was, he said, proving a task master which was driving men and women to physical prostration. Whether this prostration found its seat in the nervous system, brain, heart, lungs, stomen, kidney, liver or blood—and whether it was called neuralgia, dyspepsia, female weakness, "brain fag.," insomina, heart disease or nervous prostration, Dr. Pierce reasoned, and very properly, that the cause was due to our high pressure manner of living. He found, furthermore, that these disorders could not be reached by the remedies of other nations or other times, but that these peculiar and hitherto unknown conditions called for a peculiar and hith-

People who burned the candle at both ends did not need a stimulant, but a new means of strength, which could only be gained by creating new tissues, new blood and new nerve force. After long experiments, covering many thousand cases, he gave to the profession and the public Dr. Plerce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription. These differ from all other medicines, compounds, emulsions, tonics and sarsaparillas as bread differs from straw.

HOME INDORSEMENT.

These differ from all other medicines, compounds, emulsions, tonics and sarsaparillas as bread differs from straw.

The combined use of these medicinal compounds supplies a most efficient and scientific course of remedial treatment that has proven marvelously successful in curative results in a great diversity of obstinate chronic diseases.

The aim of this common-sense physician and the object of his common-sense remedies was not to give patients a course of "temporary physical patchwork," but to go to the root of disease and effect permanent cures. The result is that in every city, town and country of the Union merchants, farmers, mechanics and laborers, their

His "Favorite Prescription" is increasing the outward attractiveness and the true inwardness of the "Summer Girl," the "Sleigh Belle," the "Easter Lily," the "Mountain Maid," the House Wife and Home Worker, because it supplies the needed nerve and brain food, through enriched and vitalized blood, and thereby gives the true elements of new health, strength and life. Dr. Pierce's Favorite Prescription is of purely vegetable composition and is perfectly harmless in any condition of the system. It exerts a wonderful soothing, healing and strengthening power over woman's delicate organism. It is an invigorating tonic for the whole system, and is almost an infallible specific for the peculiar weaknesses, irregularities and painful derangements of woman.

DOCTORS' MISTAKES.

DOCTORS' MISTAKES. Careless, easy-going doctors frequently treat their women patients for billiousness, nervousness, dys-pepsia, liver or kidney troubles when the real sick-ness is in the organs distinctly feminine, and no ness is in the organs distinctly feminine, and no help can come till they are made perfectly sound and healthy in both structure and function, which is brought about in due time, by the use of Dr. Pierce's Favorite Prescription. His "Golden Medical Discovery" is converting weak and weary, helpless and hopeless men, women and children into strong, vigorous, happy beings. The latter medicine is the great blood purifier, nerve food and flesh builder, imparting nerve force and building up—not fat, but solid, firm flash, when reduced below a healthy standard by "yaasting diseases." It does not make too corpulent people more fat, but builds up the solid, miscular flesh to the healthy, or normal standard—thereby sounding out the form

builds up the solid, miscular fiesh to the healthy, or normal standard—thereby, counding out the form and figure and rubbing out premature wrinkles.

The "Golden Medical Discovery" is an invigorating tonic and cures indigestion, or dyspepsia, "liver complaint" or "biliousness," and for lingering coughs and all long-stending bronchial affections it is simply unequaled.

Serious illness often has its beginning in neglected little things. Even giread consumption comes on by degrees, and may begin with a very slight derangement. Taken in time, 98 per cent of all cases of consumption can be cured. Taken in time, no disease need be really serious. The best safeguard against disease is an active, healthy liver. That means GOOD, SOLID, HEALTHY FLESH.

GOOD, SOLID, HEALTHY FLESH.

The germs of disease seek out the week spots in the body. Don't have any, weak spots. If you have them now, clear them, out, tone them up, make them strong. Dr. Pierce's Golden Medical Discovery will do it. It searches out all poisonous matter and disease germs of whatever character. It regulates the action of the organs of the whole body. It forces out impute matter, makes the blood rich and puts new life into every fiber.

Two doctors failed to cure Mrs. H. Price, of No. 413 Birch street, Reading, Pa., who suffered from severe disease of the womb after childbirth. She auffered intensely from pain in her thighs, hips and breast, also in lungs; was badly constipated; had no appetite; could not sleep; was extremely nervous; womb was greatly swollen, hard and sensitive; could only sit up a few minutes. The doctors wished to perform a surgical operation which she refused to submit to, but instead wrote to Dr. Plerce, who advised his "Favorite Prescription"—four bottles of which completely cured her.

Mrs. A. R. Norn an of Red Fork, Creek Nation, Ind. Territory, writes: "After a great deal of suffering for four years, which grew worse, my physician said my chief aliment was ulceration of the womb—also a complication of aliments, pains in lower parts, aching of back, etc. Six months ago I commenced taking Dr. Flerce's Favorite Prescription and his "Golden Medical Discovery." Have taken several bottles of each, also his "Pleasant Pellets," and am now nearly restored to my usual health.

HOME INDORSEMENT.

So highly is Dr. Pierce regarded at home that h has been repeatedly elected to the highest public offices (such as State Senator and United States Representative) by the citizens of Buffalo, and such is his professional standing and that of his Institute that he, as well as the members of his mediis his professional standing and that of his Institute that he, as well as the members of his medical staff, are not clay constantly consulted by physicians all over America, but have held executive positions in leading medical and scientific societies. Dr. Pierce has on file many thousand letters from grateful people, many of whom were cured by his remedices after having been given up as incurable by local physicians and noted specialists. Many of these grateful patients have specially requested that their cures be published for the benefit of other sufferers. Statistics show that there are not three cases of female disorder in a hundred that Dr. Pierce's remedies will not cure promptly and permanently. No matter how serious the case may be, no matter what friends, physicians and specialists may say, no matter how helpless and hopeless the patient may feel, if she will write to the World's Dispensary Medical Association at Buffalo, N. Y., of which Dr. Pierce is President, she will promptly receive, free of cost, such plain, straightforward, confidential advice as will enable her to cure herself at home. If, as it sometimes happens, her case doesn't yield entirely to the remedies mamed, the records show that by visiting Dr. Pierce's Invalids' Hotel and Surgical Institute and placing herself under the treatment of the corps of skilled specialists, who have successfully treated thousands upon thousands of cases, she will soon go forth a well, strong and happy woman. After years of experience it has been found that there are very, very few cases not curable by Dr. Pierce's put up medicines on sale throughout the land, and when such a case is found the patient is not asked to indulge in further experiments and expense, but is candidly advised by Dr. Pierce as to her true condition.

A GREAT BOOK FREE.

A GREAT BOOK FREE. When Dr. Pierce published the first edition of his work, The People's Common Sense Medical Ad-viser, he announced that after 680,000 copies had work, The People's Common Sense Medical Adviser, he announced that after 680,000 coples had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of coples has aiready been sold, he is now distributing, absolutely free, 500,000 coples of this most ——complete, interesting and value—sense medical—No. 182. —work ever published—the recit——work work were published—the recit——work work work will be its president, this little COUPON NUMBER with twenty-one (21) cents in one-cent stamps to pay for postage and packing only, and the book will be sent by mail. It is a veritable medical library, complete in one volume. It contains over 1,000 pages and more than 300 illustrations. Several finely illustrated chapters are devoted to the careful consideration in plain language of diseases peculiar to women and their successful home treatment without the aid of a physician and without having to submit to dreaded "examinations" and the stereotyped "local applications," so repulsive to the modest and justly sensitive woman. The Free Edition is precisely the same as those sold at \$1.50 except only that the books are bound in strong manilla paper covers instead of cloth. Send NOW before all are given away. They are going off rapidly, therefore do not delay send-ing immediately if in want of one.
